STATE ENERGY LOAN PROGRAM
Addendum #6-Lighting

Complete this portion of the application if you are planning on replacing lighting as all or part of your energy project. Information below is taken from adopted codes which can be found at: https://dbs.idaho.gov/Codes/What_codes_does_DBS_use.pdf

Check with your local building official to verify the codes that have been adopted in your jurisdiction as specific requirements may have been amended.

Single Family Housing Loans
In order to qualify for a Low Interest Energy Loan, you must be replacing 50% of the lighting in your building with high-efficacy light bulbs and lighting fixtures.

Number of lights in the building _____

Amount	Existing Lights *(Type)*	Proposed Lights *(Type)*

Commercial/Multi-Family Home/Agricultural/Industrial Loans
In order to qualify for a Low Interest Energy Loan, you must be replacing 75% of the lighting in your building with high-efficacy light bulbs and lighting fixtures.

Number of lights in the building _____

Amount	Existing Lights *(Type)*	Proposed Lights *(Type)*

In order for the application to be considered complete, a bid for the new lighting must be provided.
