

IDAHO STATE ENERGY LOAN PROGRAM RESIDENTIAL PROJECT APPLICATION

State Energy Loan Program Overview

The Idaho Governor's Office of Energy and Mineral Resources (OEMR) State Energy Loan Program offers low-interest loans to fund energy efficiency projects for single-family homes in Idaho. All loans are evaluated by a financial institution for credit worthiness and must be secured with real estate.

OEMR's total funding for this year's State Energy Loan Program is limited. Therefore, applications will be processed on a first come, first served basis until the funding limit is met or by December 31, 2025; whichever comes first. If the funding limit is not met by December 31, 2025, OEMR may re-open the application period. **Loans are only available for single-family residential homes.**

The State Energy Loan Program is federally funded and therefore must adhere to federal requirements. All loan applications are subject to federal requirements outlined in OEMR's Assistance Agreement with the Department of Energy: Award No. DE-SE0001087, CFID No. 81.041. This includes a Section 106 review through the State Historic Preservation Office (SHPO).
