Idaho Governor's Office of Energy Resources

2016 Idaho Awards for Leadership in Energy Efficiency – Application Period Open

The Governor's Office of Energy Resources (OER) is now accepting applications for the 2016 Idaho Awards for Leadership in Energy Efficiency for energy efficiency projects that occurred during 2015. These awards acknowledge the Idaho companies exhibiting leadership in implementing energy efficiency at their local facilities/buildings.

To qualify for the Industrial Awards, facility operations must fall under the North American Industry Classification System 31-33 or Standard Industrial Codes 20-39. To qualify for the Commercial Awards, the organization must utilize a building for commercial purposes, which does not include buildings used for residential, manufacturing/industrial, or agricultural purposes. A list of eligible building uses (grocery, retail, etc.) can be found on OER's website.

To apply for an award and obtain recognition for your energy efficiency projects, please contact the OER at 208-332-1660 or visit our website at www.energy.idaho.gov. Applications are due by 5 p.m. on Friday, September 2, 2016.
