## **Governor Recognizes Nine Idaho Organizations for Exceptional Leadership in Energy Efficiency**

Governor C.L. “Butch” Otter recognized recipients of the 2017 Idaho Awards for Leadership in Energy Efficiency today during the Idaho Energy and Green Building Conference in Boise. The awards highlight Idaho organizations that are exceptional leaders in implementing energy efficiency at their facilities.

The recipients of the 2017 State of Idaho Award for Excellence in Industrial Energy Efficiency are:

CTI Foods/ SSI Foodservice Inc. – Wilder  
J.R. Simplot Company – “Don Plant” – Pocatello  
Agropur Inc. – Jerome Cheese Co. – Jerome  
City of Idaho Falls Wastewater Division – Idaho Falls  
City of Ketchum/Sun Valley Water and Sewer District – Ketchum

The recipients of the 2017 State of Idaho Award for Excellence in Commercial Energy Efficiency are:

Brigham Young University-Idaho – Rexburg  
General Growth Properties (GGP)/ Boise Towne Square Mall – Boise  
Boise State University Foundation – Boise  
Ada County – Ada County Juvenile Probation Services-West – Meridian

Each organization has demonstrated a long-term commitment to reducing their energy use and environmental impacts in Idaho. Projects implemented by these nine recipients in 2016 would save enough energy to power more than 1,200 Idaho homes for a year. These organizations clearly are among Idaho’s outstanding leaders in achieving energy efficiency at the local level.
