

Government Leading by Example

Rural Public Building Energy Efficiency Support

Peck Public Library

The Idaho Office of Energy and Mineral Resources (OEMR) is accepting applications from rural cities and counties interested in saving energy in existing public buildings.

Process

1. Complete the Government Leading by Example application, located on OEMR's website or follow this link: <https://oemr.idaho.gov/wp-content/uploads/2016/06/gov-leading-by-example-app-2.pdf>

2. Submit the completed application to:

IDAHO GOVERNOR'S OFFICE OF ENERGY AND MINERAL RESOURCES

Attention: Alexa Sakolsky-Basquill
304 N. 8th Street, Suite 250
P.O. Box 83720
Boise, ID 83720-0199
Or Email: alexa.sakolsky-basquill@oer.idaho.gov

3. Once the application has been approved, OEMR can offer a **free** building energy audit conducted by the University of Idaho's Integrated Design Lab. The energy audit will help to identify energy saving opportunities.

4. OEMR may be able to provide some cost-share funding for energy efficient retrofits on energy saving opportunities found during the energy audit.

5. Benchmark the building in Portfolio Manager: <http://www.energystar.gov/buildings/facility-owners-and-managers/existing-buildings/use-portfolio-manager>
